

# Mikhail Maevskii

Android Developer with 4+ years of experience

Ashkelon, Israel  
+972 (55) 556-2313  
memaevskii@gmail.com

## EXPERIENCE

### Fice Trade, Online — *Android Developer*

October 2022 - March 2023

Developed project's MVP and was one of the managers of the project.

## PROJECTS

### Event Android App: An Empowering Event-Management Platform

Experience the power of control with the Event Android App – a dynamic event-management platform designed to put you in charge. Create, manage, and personalize your events effortlessly. Extend warm invitations to your desired audience, and express your experiences through insightful event reviews. This project reflects my proficiency in Android app development and showcases my commitment to creating user-centric solutions.

### Storyteller - A Platform for Writers

Storyteller is a dynamic platform I developed to empower writers and readers alike. It offers a space to craft diverse narratives, engage in literary discussions, and share creative expressions. My contributions include designing the platform, fostering a supportive community, and implementing features for recognition and privacy control.

### Exit Confirmations System

Developed an exit confirmation system for the youth village in Israel.
